

Certificate No: MNDE/REP/0008/07

**Metallock Engineering Germany GmbH
Gutenbergring 64
22848 Norderstedt
Germany**

has as a member of the Midroc-Metallock AB Group been approved in accordance with the requirements of Lloyd's Register for the repair of specified components by metal stitching using the 'Metallock' and 'Masterlock' processes.

Before any repair is undertaken, Lloyd's Register is to be informed and their agreement obtained.

This approval is subject to compliance with the requirements of Lloyd's Register. Each repair must be undertaken to a written repair procedure that has been accepted by the attending Surveyor. All work is to be completed by fully trained and authorised personnel to the Surveyor's satisfaction.

All repairs using the metal stitching process to forgings or castings for pressure vessels, boilers, crankshafts, propellers or other components subject to cyclic loading must be submitted to Lloyd's Register Materials & NDE Department for consideration prior to commencement of work.

The acceptance of any repair as a permanent or temporary means would depend upon the merits of each case.

This Certificate is issued to the above contractor and is valid until the date given below.

Valid until: 24 January 2022
Date of issue: 20 June 2019

Clive Arnold
Senior Metallurgical Specialist to Lloyd's Register EMEA
